

Your AI partner across the portfolio.

We help PE firms and their portfolio companies unlock value through AI-driven operations, custom agent development, and dedicated technology teams.

WHAT WE DO

1. AI-Centric Audit

We examine workflows across your portfolio companies to identify where AI delivers the highest ROI. The result: a comprehensive, prioritized action plan — not a slide deck, but a roadmap tied to real operational gains.

2. Agentic Development

We build and deploy custom AI agents on the cutting edge of autonomous workflow execution. These aren't chatbots — they're agents embedded in your operations that research, communicate, and execute tasks independently.

3. Dedicated Engineering Pods

For product builds, legacy refactors, and system optimizations, we assemble targeted "pods" — small, focused teams that develop, deploy, and iterate on a weekly shipping cadence. Think of us as your portfolio's on-demand engineering department.

HOW WE ENGAGE

Day 1

Scoping & system access

Week 1

Audit complete or first agent live

Weeks 2–4

Full team operational

Ongoing

Optimization & expansion

CASE STUDIES

Agentic Business Development

B2B services company — needed to scale outbound sales without adding headcount.

- Deployed coordinated AI agent team for end-to-end outreach
- Automated target research, contact enrichment, and lead scoring
- Personalized outreach drafting and CRM management
- Live reply detection with human handoff at key decision points
- Replaced multi-person SDR function, running 24/7

DermSquared

Digital health platform — needed faster shipping cycles and infrastructure modernization.

- Embedded agent-first engineering pod shipping weekly
- Restructured revenue-driving content templates
- Rebuilt core component library and refactored performance bottlenecks
- Launched modular SEO frameworks for traditional and AI-driven discovery
- Result: faster iterations, cleaner infrastructure, scalable platform

WHY PE FIRMS CHOOSE GUMBO

- **Portfolio-wide leverage** — One engagement model that scales across all portfolio companies
- **Speed to value** — Agents and tools ship in days, not quarters
- **Custom over generic** — Built for your specific workflows, not off-the-shelf SaaS
- **Partnership model** — We operate as an extension of your team with founder-level attention
- **Human-in-the-loop** — Autonomous execution with human oversight at every decision point
- **AI-native delivery** — Our own teams use the same AI-augmented methods we deploy for clients

Let's talk implementation.
